

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## SVS True Potential Balanced 5 Fund A Accumulation Shares [ISIN: GB00BGR6VH64] A Income Shares [ISIN: GB00BGR6VG57]

The Fund is a sub-fund of SVS True Potential Investments OEIC 3. The Authorised Corporate Director of the Fund is Smith & Williamson Fund Administration Limited trading as St Vincent St Fund Administration, part of the Smith & Williamson group.

### Objectives and investment policy

The Fund aims to achieve capital growth over the medium term (3 years or longer).

The Fund will generally be invested in collective investment schemes.

To reflect the balanced nature of the Fund, 40% to 80% of the Fund will be invested in assets which are considered higher risk. Higher risk assets include mainly domestic and international equities, there may also be a varied level of exposure to property, commodities and absolute return strategies. Exposure to these assets will be achieved indirectly through collective investment schemes, listed securities or directly through equities where applicable.

The Fund may also invest directly or indirectly in:

- bonds issued by governments and other organisations
- cash, deposits and money market instruments.

There may be times where the collective investment schemes which the Fund invests in will almost exclusively be index-tracking schemes managed by Legal & General.

There is no guarantee that capital will be preserved.

The Fund may also use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

The Fund may invest more than 35% of the scheme property in government and public securities issued or guaranteed by a single issuer.

There are no geographical restrictions on the countries of investment.

Accumulation Shares: Any income the Fund generates will be reinvested. Income Shares: Any income the Fund generates will be paid out to you.

You can buy and sell shares on any working day in London.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking any benchmark nor is the Fund constrained by the value, price or components of any benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the Prospectus.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,  
lower risk

Typically higher rewards,  
higher risk

- The Fund is in a medium category because the price of its investments are expected to rise or fall to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- For full details on risk factors for this Fund, please refer to the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	0.31%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is annualised based on the expenses incurred during the period 1 May 2020 to 31 October 2020. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The ongoing charge of 0.31% is based on the current annual management charge (AMC) of 0.22%. Should the maximum AMC of 0.35% be charged in future, the estimated ongoing charges figure would be 0.44%.
- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.

## Past performance

Source: FE fundinfo 2020

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 23/11/2018.
- Share/unit class launch date: 23/11/2018.
- Performance is calculated in GBP.
- All charges and fees, except any entry, exit or switching charges, have been included within the performance calculation.

## Practical information

- The Depositary of the Fund is NatWest Trustee & Depositary Services Limited.
- You can get further information on the Fund, including how to buy and sell shares, from the Prospectus and the annual and half-yearly reports and accounts, which are in English only. You can get copies of these free of charge, by telephoning 0141 222 1151.
- The latest share prices are available on [www.fundlistings.com](http://www.fundlistings.com) or by telephoning 0141 222 1151. UK tax laws may impact your own tax position.
- Smith & Williamson Fund Administration Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the UCITS.
- The Fund is a sub-fund of an umbrella company. The Prospectus and long report are prepared for the entire entity. The liabilities of each sub-fund are segregated by UK law and the Fund should not be liable for any debts that cannot be paid by another sub-fund.
